

## Mini DisplayPort to HDMI Adapter with USB Audio

Product ID: MDP2HDMIUSBA

The MDP2HDMIUSBA Mini DisplayPort® with USB Audio to HDMI® Adapter offers a cost-effective HDMI with audio to Mini DisplayPort link, letting you connect an HDMI-capable HDTV to a device with a Mini DisplayPort output, while saving the expense of upgrading the TV for compatibility. The Mini DisplayPort adapter is the perfect accessory for any of your Microsoft® Surface™ Pro devices with mDP.

Simply plug in the USB and Mini DisplayPort connectors to a PC or Mac® and the HDMI connector to an HDMI television/monitor. 2-Channel analog audio will pass through to the HDMI connection, delivering sound to the display side, with the convenience of one HDMI cable.

MDP2HDMIUSBA is a passive adapter that requires a DP++ port (DisplayPort++), meaning that DVI and HDMI signals can also be passed through the port.

Compatible with Intel® Thunderbolt™, when connected directly to a supporting DisplayPort over Thunderbolt™ I/O port.

Backed by a StarTech.com 3-year warranty and free lifetime technical support.

### Certifications, Reports and Compatibility

### Applications

- The Mini DisplayPort® to HDMI® adapter allows for an easy and hassle free connection to any HDMI HDTV or display from a PC or Mac.
- Use your DisplayPort and USB port for video and audio pass-through to one HDMI cable.
- Deliver audio/video content from your PC or Mac to your A/V devices (HDTV or receiver) for a larger and louder viewing.

### Features

- USB Audio pass-through to HDMI® cable
- Supports HDTV resolutions up to 1080p
- Easy to use cable, no software required
- Compatible with Intel® Thunderbolt™
